Wraparound Support

Student Support

Personal support starts before you even get on the plane.

Our student support team is here to help you prepare for study in New Zealand, settle in, and access ongoing pastoral care throughout your academyEX journey.

Academic Support

Personalised academic guidance when you need it.

Learn from experienced academics and contemporary practitioners, with access to 1:1 support to help you strengthen your research, thinking and academic progress.

Industry Advisor Support

Real-world guidance that sets academyEX apart.

Every learner is connected with a local industry advisor who brings practical experience, relevant networks and a workplace perspective to your learning and research — including 1:1 guidance throughout your journey.

Global Learner Experience

Learner Experience

Your classmates are working professionals, not recent graduates.

Learn in a blended cohort alongside local New Zealand professional students, connecting you to the New Zealand business ecosystem.

Learner Outcomes

Tackle real business problems, not case studies.

Global learners graduate with career-relevant capabilities, professional confidence, practical experiences and a network of lifetime connections.

What our students are saying

“When I found out how the studies are conducted in a very stress-free manner — you’re not heading towards an exam or submitting an assignment that’s going to decide your grades — I was drawn in.”

Dishara - India
*Master of Change and
Organisational Resilience*

[Watch testimonial](#) 

“If you have some work experience like me and a certain research direction, you can use your research as the direction and goal of your study, and obtain a master's degree at the same time.”

Vincent Lin - China
Technological Futures

[Watch testimonial](#) 

What our students are saying

I didn't realise that I could learn, especially when it comes to AI. Before coming to this program, I wasn't into that, but now I can confidently say that I'm knowledgeable about AI.

Kraus Versoza - Philippines
Technological Futures

[Watch testimonial](#) 

“I came here with a little bit of anxiety, but when I arrived, everybody was welcoming. That helped me come out of my shell about who I am as a neurodivergent person. I've come to accept myself more, and to be able to help others accept who they are as well.”

Jae Molina - Philippines
Master of Change and
Organisational Resilience

[Watch testimonial](#) 

What our students are saying

“The one that fitted most with my professional growth was this master’s, particularly because of the digital inclusion, collaboration and the leadership skills and also the culturally responsiveness in particular.”

Sharmila - India
Master of Contemporary Education

[Watch testimonial](#) 

“We have industry experts, industry sessions that we have every week - doing MTF is changing my life.”

Aditya - India
Technological Futures

[Watch testimonial](#) 

Living and studying in **Auckland, New Zealand**

New Zealand's number one student city*

Auckland, the 'City of Sails', is progressive and known for its lifestyle, innovation, and technological advancement. It is home to more than 1.7 million people and over 200 nationalities, making it one of the most ethnically diverse cities in the world. It is also the country's main centre for business where the highest growth industries and the biggest employers concentrate.

That mix is what makes Auckland a genuinely safe place to live in and a great place to raise a family.

Auckland is ranked New Zealand's best student city and 26th in the world in the 2027 QS Best Student Cities ranking.

academyEX's campus is based in Grafton, central Auckland, surrounded by shopping precincts, industry, and entertainment.

Studying with us fits around your life and commitments.

🚶🚉 6 minute walk to Grafton train station
(2 stops to mid-town).

🚶🚌 1 minute walk to bus stop.

📍 99 Khyber Pass Road
Grafton, Auckland, 1023
New Zealand

Family and community friendly

academyEX is a family friendly environment. From the day you arrive, you are part of our community. And graduation doesn't end our connection with you either. An extensive calendar of events and networking opportunities keep our graduates involved with academyEX well into the future, including the ability for upskilling as a life long learner.
